

GITTLEMAN

A HIGHER STANDARD OF SERVICE

## **DRAIN CLEANING DIVISION**

Our drain experts can jet and cable clean main sewer lines, and hot thaw frozen leaders, culverts and drains. We also maintain storm water systems, locate underground lines and provide preventative services. So, whether you are looking for one-off services and installations, large projects, or preventative maintenance plans, our service leaders will be ready and able to accommodate your needs. Gittleman offers competitive pricing in all fields and have a dedicated team of service dispatchers that will ensure you receive timely and professional service.
